

GIS DAY 2011

“GIS - The fabric of LA County.”

Learn how we use GIS technology today and how it is developing

Walk through our map gallery and peek into GIS-equipped vehicles

Play our GIS games

County of Los Angeles
Public Works Headquarters
900 S. Fremont Ave
Alhambra, CA 91803

November 16, 2011
9:00am - 3:30pm

<http://gis.lacounty.gov/gisday>

If you use an electronic map, you might be using Geographic Information Systems (GIS) that uses the power of computers to locate, map, organize and manage places, people and data.

GIS Day offers an opportunity to find out how Los Angeles County and more than 30 other agencies are using this technology to make government more efficient, keep you safe, and make your life easier.

GIS Day will feature displays and demonstrations, a map gallery and games. You'll learn how GIS is used in

- Emergency Vehicles
- Elections
- Traffic Management
- Increasing Census-Based Funding by \$300 Million
- Local Universities
- LA County Sheriff Vehicles
- LA County Fire GIS Truck

A shuttle will be available from the County Hall of Administration to Public Works Headquarters. Call (626) 458-7113 by Wednesday, November 9th for reservations. Pick up and return drop on Grand Avenue at the County Hall of Administration.

Direction to Public Works Headquarters from the 10 freeway (East or West): Exit Fremont Avenue, Fremont Avenue North, Turn right at Orange Street, DPW Headquarters is on Left.
